

PHONE BOX REPURPOSE & REFURB HAVE YOUR SAY

Our lovely K2 phonebox on the Level is now owned by the Parish Council. We have a small budget for paint etc as it is need of care. We also need ideas for what it can be repurposed for and a team of volunteers to do the work. You will have seen a few of these around that have been repurposed into book or plant exchanges. You may have better or more interesting ideas. Email our clerk Cat Radford at parishclerk@dittishamparish.co.uk or richardbond@dittishamparish.co.uk

Suggestions, comments, responses:

I wonder if it is possible for it to be relocated to a more user friendly location? At the moment it's blocked a little by parking on the levels and might be better suited to being on the Ham depending on use.

I had a few ideas set out below;

A parcel collection point like an InPost locker but in keeping with the local area rather than those ugly lockers.

A drop off point for super market deliveries.

Adapted to have self serve baked goods, stocked by a company with a pay to release mechanism.

Housing defibrillator.

On the Ham, storing of free to use sports equipment for children, football, rounders, etc.

Possible adaption on the Ham as an individual changing facility for visiting sailors

As seen in the city of Bath
